GLEICHEN, ALBERTA, WEDNESDAY, SEPTEMBER 17, 1919

Provincial Library Jan. 1920

## W. J. B. Beck Killed by Lightning Tuesday

Tuesday afternoon William J. B. Beck was struck on the head and instantly killed by lightning at Nelson Bros. farm, five miles west of Standard, and about sixteen miles north of Gleichen.

The unfortunate young man had been operating an engine for a threshing outfit and had two of his own teams hauling to the separator. One team got stuck and went over and helped to get the wagon out of the hole. He was returning to the engine across the stubble field when three flashes of lightning in quick succession were seen by the workmen and at the third he was seen to fall. The men rushed to him at once, but a quick examination proved he was dead.

Two of the men came to Gleichen at once for coronor Dr. Farquharson, who went out and after an examination of the body took statements from Messrs Andrew Mallenberg and J. B. Seested, two of the men present at the time the man was killed, decided an inquest was unnecessary.

Geo. W. Evans then took charge of the remains and brought it in to Gleichen to embalm it and prepare for shipment to his home at Deer Lodge, Montana, to where the remains will be accompanied by his brother, Peter Beck.

Andrew Mallenberg, one of the men who came to town to report to the coronor, said the air seemed to be charged with electricity and he left the separator, of which he had charge, and stopping the engine told the men to keep away from it, at which they smiled, but they had only moved a short distance when the lightning struck. Soon after the rain started and he described the rain as falling in buckets. He said two miles south of Standard there was no rain and threshing was being carried on.

Not many Gleichen folks went to Calgary to see the Prince, not that our people are less patriotic than other people, but at this season are too busy to leave their work, and, no doubt many do not care to take part in such demonstrations. The Prince appears to be a very modest young fellow, who, despite his exalted position, has managed to keep his head as an ordinary being. It is for this reason he is liked by the people and gives promise of being the most popular king the world has known.

As one cowboy said: "We like the Prince because he is so god darn common. Just like ourselves."

"Believe me. That boy would soon be handy around a ranch," said another.

"I'll say he'd make a real westerner," remarked a third. And so goes the opinions.

It is well we have a prince of this character at this time, who is naturally adapted to the ways of the people of today. Were he of the character of many of the ancient kings we have read of it is safe to say in a short time this office would be dispensed with. But the evident desire of our Prince to meet the whole people and be one of them makes a vast difference.

Naturally, with so many of our neighbors from the great republic across the line to the south residing here, we hear a great deal of discussion of the cost of keeping up royalty at this time. True, it does come high. Yet, we are told that it costs more to keep up the pre-

## 15,000 Ask Government for Cash Bonus for Soldiers

By request of some of the members of the Gleichen branch of the G.W.V.A. The Call gives prominence below to the resolution unanimously passed at the mass meeting held Sunday in Mewata park at Calgary:

"Resolved, that we, fifteen thousand loyal Canadian citizens, in mass meeting assembled at Calgary this 14th day of September, 1919, representing almost every organized body in our country, feel that a further bonus in cash is necessary to repatriate our army and navy, and do affirm that we are willing and anxious to pay such a bonus, do pledge ourselves to strive, and work for this bonus until obtained, and do warn our government that the situation in our western country is grave and urgent; that temporary work will soon have ceased and that our cities will be thronged with a demobilized army which is not repatriated, and implore our government to accept and face this responsibility, and, before they conclude their present session, grant this bonus and bring us that peace and contentment for which they have suffered so much."

The Gleichen members attended the mass meeting about thirty strong and in the procession carried a huge flag inscribed, "We are with you—Gleichen".

The Gleichen branch is growing rapidly, new members being enrolled at nearly every meeting, and it is destined to be one of our largest and most influential organizations.

## Monday Capt. McCall to Take Air Passengers Up at Gleichen

Do you want to take a ride in the air with Aviator Capt. Fred. McCall?

If so, you can do it at Gleichen next Monday.

Some of our citizens were at the Bassano fair yesterday and so pleased were they with their flight that they arranged with Capt. McCall to be at Gleichen Monday to give every person in Gleichen an opportunity to soar heavenward.

To meet the expenses seventeen persons are required to agree to pay \$15 each to skim the blue etherial, and at the hour of going to press ten have signed up for a flight. All others who want to fly must send in their names by noon Sunday, when the number will be communicated to Capt. McCall and final arrangements completed.

## The Craiganter District

Did The Call man mean oats when he spoke of 40 or 50 bushel yield, or was it Johansson's wheat?

Mr. and Mrs. Carl Sheets are happy over the arrival of a daughter.

The farmers in this locality are pleased with the way the wheat is yielding, but it is too early to say what it will average.

The Craiganter school has opened after two months vacation. Miss Porteous is the teacher for the next term. She is a stranger in our province, coming from Nova Scotia. We wish her success in her new charge.

We must congratulate Mr. L. Selgensen on his success in six years, having started with small capital. He is a credit to his coun-

trymen. He has added a section and a quarter of land to his already large holdings. Three-quarters of 480 acres of this land is well improved and first-class soil. This he purchased from Messrs. Boice and Morrison of New York. The Dane is hard to beat in farming and very shrewd in making a deal. Mr. Selgensen now owns two sections and a quarter.

## COMING EVENTS

Sept. 20—"Moral Suicide" at the Gleichen Opera House.

Sept. 23—Musical Eekarts at the Gleichen Opera House.

Sept. 24—Marquis Municipal School Fair at Milo.

Oct. 2—Women's Institute meeting in U.F.A. Hall, Queenstown.

Mr. Pellon visited town last week and had started threshing, his wheat going 65 bushels to the acre.

A few implement collectors are visiting Gleichen these days and report business fairly good, according to the dry season.

## QUEENSTOWN

The Pioneer School has opened with Miss Gadber in charge.

Services are held in the Melo Hall every Sunday afternoon at 3.30 p.m.

Miss Isabelle Noble, provincial president of the Women's Institute and a great U. F. A. enthusiast, will speak in the Queenstown U. F. A. hall on the afternoon of October 2nd, to all members of the Institute and U. F. A. Mrs. Hall from Strathmore will also be present and a musical program is being prepared. Lunch will be served by the four hostesses of the day, Mrs. W. F. Dunston, Mrs. E. F. Beckner, Mrs. Stumpf, Mrs. Peterson.

The Reid Hill Women's Institute has sent an invitation to all members of the Queenstown and Carmangay Women's Institute for the afternoon of October 1st at the home of Mrs. Jack McKay, one mile south of Reid Hill store. It is hoped quite a few will accept the hospitality of our neighbor institute for this date.

The threshing season is already well advanced. In fact it will be lamentably short this year. On the west side of Snake Lake, around the Circle ranch, northwestward towards Cluny and Gleichen, where a few showers fell during July, crops are not so bad. Reports say that wheat on summer-fallow runs from 8 to 15 bushels and in some cases as high as 20 bushels to the acre, and all over the district, on both sides, late sown oats, some still uncut, shows up well. On oat stubble where the crop was cut early, a fine growth started after the rains in early August, and a second crop of green feed will be cut. On the east side of the lake through Milo and Majorville, where the man who doled out showers last summer apparently had a grudge against the district and where practically not a drop of rain fell during the growing season, the result is poor. The reports I have at hand says wheat runs from 2 to 12 bushels to the acre, which, small as the yields are, speaks well for the district, for there are very few districts in southern Alberta where even that amount can be raised without moisture.

At the home of the groom's sister, Mrs. James Burk of Milo, a very quiet, though pretty wedding was solemnized on the morning of Wednesday, September 10th, when Miss Viola E. Giberson, daughter of Mr. and Mrs. J. D. Giberson of Bristol, N.B., was united in marriage to Mr. Stephen Williams, son of the late Mr. and Mrs. John Williams of Milo, by Rev. E. Davidge of Queenstown district. Owing to recent bereavement the ceremony was performed in the presence of the groom's immediate local relatives only. The young couple were attended by Miss Jessie J. Burk, who acted as bride's maid, and by Clarence Umscheid, who acted as groom's man. The bride was prettily dressed in old gold satin and georgette and the bride's maid in chocolate silk taffeta.

At the close of the service a dainty wedding breakfast was served in the cherry dining room, after which the happy couple left in the groom's car for a visit to Calgary and an extensive tour of the places of scenic beauty in and around the Rocky Mountain Canadian National Parks, the bride travelling in a tailored suit of smoke-colored French serge. On returning from their mountain trip, they will take up residence in the home of the groom and will be at home to their many friends in the district.

Sincerest wishes and hearty congratulations are extended to these newly-weds by their numerous friends throughout the community.

## Sunken Eyes Brighten Quickly, Health Returns

In a Message to Ailing Women Doctor  
Hamilton Tells How It Is Done

In speaking of the ills from which women suffer, Dr. Hamilton points out that nine out of every ten women are by nature inclined to habitual constipation. Harsh purgatives are resorted to, which only intensify the trouble. Although not generally known, it is a constipated condition of the bowels that causes half the sickness and tired weariness with which all womankind is so familiar. It was after long years of study that Dr. Hamilton perfected the pills which have been of such marvellous benefit to women the world over. In his pills of Mandrake and Butterbur every sufferer will find an absolute specific for constipation, sick headache and biliousness. It is safe to say that Dr. Hamilton's Pills bring better health and keep the system in a more vigorous condition than any other medicine ever discovered. At all dealers, in 25c boxes.

## THE COW PUNCHER

— BY —  
ROBERT J. C. STEAD

The Mussion Book Co., Ltd.,  
Toronto. Printed By Special  
Arrangement.

(Continued.)

"Fool," he said to himself. And because he could think of no more specific expression to suit his feelings, and because expression of any kind brought a sort of relief, he kept on repeating the word, "Fool, fool, fool!" And as his self-condemnation gradually won him back to a sense of perspective he became aware of the danger of his position. He went over the events of the recent months, and tried to be rational. He had left his ranch home to better himself, to learn things, to rise to be somebody. He had worked harder than ever before, at more disagreeable employment; he had lived in conditions that were almost nauseating, and what had he learned? That you can't beat a card man at his own game, price sixty dollars, and that the gallery seats are cheaper, and sometimes safer, than the orchestra.

Then all of a sudden he thought of Reenie. He had not thought of her much of late; he had been so busy in the days, and so tired at nights, that he had not thought of her much. True, she was always in the back of his mind; in his subconscious mind, perhaps, but he seemed to have put her away, like his skill with revolver and lasso. Now she burst upon him again with all that beauty and charm which had so magnetised him in those glad, golden days, and the frank cleanness of her girlhood made him disgusted and ashamed. It was to fit himself for her that he had come to town, and what sort of mess was he making of it? He was squandering his little money, and now he was squandering his life. He had been drunk.

Dave's nature was one in which emotions were accelerated with their own intensity. When he was miserable his misery left no place in his soul for any ray of sunshine. It fed on itself, and grew to amazing proportions. It spread out from its original cause and enveloped his whole life. It tintured all his relationships, past, present and future. When a cloud of gloom settled upon him he felt that it would never lift, but became heavier and heavier until he was crushed under its weight. And the sudden manner in which Reenie had now invaded his consciousness intensified the blackness in which he was submerged, as lightning darkens the storm. He saw her on that last night, with the moonlight wooing her white face, until his own body had eclipsed it in a warmer passion, and he heard her words, "I know you are true and clean."

True and clean. "Yes, thank God, I am still that!" he cried, springing suddenly to his feet and commencing to dress. "I've been spattered, but nothing that won't wash off. Perhaps," and he stopped as the great thought struck him, "perhaps it was the luckiest thing in the world that the booze did put me out last night. . . . I'll wash off."

**Your Eyes**

Eyes inflamed by exposure to Sun, Dust and Wind quickly relieved by **Marine Eye Remedy**. No Smarting, just Eye Comfort. At Your Druggists or by mail 60c per Bottle. For Book of the Eye free write to **Marine Eye Remedy Co., Chicago.**

There was considerable comfort in this thought. He had wasted some precious months, but he had not gone too far, and there was still time to turn back. But he must begin work at once on the serious business of life. With this resolve his spirits returned with a rush, and he found himself whistling as he completed his toilet. There was no breakfast for the late sleepers Sunday mornings, and he went at once into the warm air outside. The sunshine fondled his body, his limbs, his face; the spring ozone was in his lungs; it was good to be alive. Alive—for a purpose. Well, he would start at once; how could he begin a life of purpose today? He was quite set on the necessity of doing something, but quite at sea as to what that something should be. It occurred to him for the first time that society had been much more generous in supplying facilities for a boy to go down hill than to go up.

He became aware of a bell ringing. At first the sound had fallen only on his subconsciousness, but gradually he became aware of it, as one being slowly recalled from sleep. Then he remembered that it was Sunday, and that was a church bell. He had often heard them on Sundays. He was about to dismiss the matter when a strange impulse came into his mind. Why not go to church? He had never been in church, and he felt that the surroundings of the pool hall would be much more congenial. He had little stomach for church. What if the rest of the gang should learn he had been at church?

"I believe you're afraid to go," he said to himself. That settled it. In a few minutes he was at the church door, where an oldish man, after surveying him somewhat dubiously, gave him a formal handshake and passed him into the hands of an usher. The usher led him down an aisle and crowded him into a small pew with several others. There were many unoccupied pews, so Dave concluded it must be a church policy to fill them full as far as they went. He also observed that the building was filling up from the rear, notwithstanding the efforts of the ushers to cajole the people farther down the aisles. Dave reflected that the custom here was quite different from the theatre, especially the "rush" gallery, where everyone scrambled for the front seats.

He was very conscious of being observed, and there was an atmosphere of formality and, as it seemed to him, of strained goodness that made him uncomfortable. But presently the organ commenced and diverted his interest from himself. It was very wonderful. His position commanded a view of the organist, and Dave marvelled at the manner in which that gentleman's feet hopped about, and how his hands flourished up and down, and occasionally jumped from the keyboard altogether to jerk out a piece of the machine.

Then the choir filed in. They were all dressed alike, and the men had a kind of a gown on. Dave thought that was very silly. By some mental freak he found himself picturing a man with a gown roping a steer, and it was only by a sudden tightening of his jaws that he prevented an explosion of amusement. He was still feeling very happy over this when a tall man entered from a side door and ascended the steps to the pulpit. He moved very solemnly, and when he sat down, rested his head on his hand for a minute. Then he looked over the audience, and Dave thought that his expression was one of approval. Then he looked at the ceiling.

"He feels safe in his seat," thought Dave. "No buckin' in this bunch. Well—"

The organ had broken forth in a great burst of sound and everyone was standing up. Dave did so, too, belatedly. Then everybody sang. They seemed to know just what to sing. It was all new to Dave, but it sounded all right. It made him feel just like the sunshine did after the stuffy room. Then they all sat down. Dave was becoming more alert, and was not caught napping in this movement.

There was a short prayer, which Dave did not understand, and more singing by everybody, and then the ushers came around for the collection. Dave did not know how much to put on the plate, but he supposed a good seat like this in the theatre would cost a dollar, so he put on that amount. He noticed that his neighbor on one side put on a nickel, and on the other side nothing at all. He began to think he must have made a mistake. All this time the organ was playing boisterously, but suddenly it dropped to a low, meditative theme, and Dave began to fear it would stop altogether. But no; a young woman was standing up in the choir; she was pretty, with quite a different air and finer comeliness than that of the theatre girls of the night before. In some vague way she seemed remini-

scent of Reenie Hardy. Dave's introspection was not deep enough to know that any fine girl would remind him of Reenie Hardy.

Then she began to sing, and he felt again that the sunshine was playing about him, but this time he heard the birds, too, and the ripple of the distant water, and the stir of the spruce trees, and he could see the lattice of sunlight through their dark leaves playing on the brown grass, and there was a smell of distant wood smoke, and the glow of dying coals.

He was swaying gently in his seat, held in the thrall of her voice, and suddenly he was glad he had put a dollar on the plate. He could not follow all the words, but it was something about a land where the sun would never go down. Well — no doubt the preacher would tell them more about it.

Then there was a long prayer by the preacher. He began addressing the Deity as all mighty and all knowing, and then spent many minutes in drawing his attention to details which had evidently escaped His notice, and in offering suggestions for the better government of the universe. He dwelt on the humility and penitence of the congregation, including himself, and at this point Dave's unorthodox ear began to detect a false note. He looked about from preacher to congregation, and saw no evidence of penitence or humility. "If God is all-knowing," said Dave to himself, "that preacher is going to get in wrong. Why, he couldn't put over that humility bunk on me."

At length it seemed that the sermon was really going to commence, but a well dressed man came down the aisle and read a long financial statement. Dave gathered from it that the Lord was pretty hard pressed for ready cash. "No wonder," thought he, "if they all give nickels and not thins." Pretty well dressed bunch, too.

Finally the preacher took the meeting in hand again, and announced his text, but Dave soon forgot it in trying to follow the sermon. It was an orthodox exposition of the doctrine of the atonement. Dave would not have known it by that name, and there were many expressions which he could not understand, but out of a maze of phrases he found himself being slowly shocked into an attitude of uncompromising hostility. There was no doubt about it; the preacher was declaring that an innocent One had been murdered that the guilty might go free.

(To Be Continued.)

### Province Seeks Own Powers

British Columbia Wants Jurisdiction to Deal With Profiteering

Vancouver. — The mayors and reeves of 27 British Columbia municipalities met here, with Hon. J. W. DeB. Farris, attorney-general, to discuss measures for relieving the cost of living, and adopted a resolution suggesting the appointment of a provincial board of commerce for British Columbia, with full judiciary and administrative powers, to be appointed and administered by the federal government.

It was argued that the existing board of commerce, working from Ottawa, was too distant to be fully effective on the Pacific coast, and the feeling was that this federal board should be supplemented by a body with provincial jurisdiction, but with equal powers. The gathering asked the board of commerce to establish a legal business profit "spread" as an initial basis upon which profits could be figured where essential commodities were concerned.

### A Chemical Entente

At the recent annual meeting of the Association of British Chemical Manufacturers it was announced that a friendly understanding had been come to between the British and French chemical industries for co-operation in international development. The British association now represents £70,000,000 of capital invested, and continued rapid growth in the department of dyestuffs and fine chemicals is assured. The importance of chemical progress in its relation to industrial efficiency and the life of a nation cannot be overestimated, and everything possible will be done to hold and extend the amazing advance made in Great Britain in response to the necessity for sudden development during war time.

### First Question

"What material would you suggest for a bathing suit?"  
"Do you want it to bathe in?" asked the competent clerk.

Flattery makes people sick unless they are able to swallow it.

A good wheelwright seldom gets left.

W. N. U. 1281

### Germans Oppose Extraditional Plan

Would Be Grateful to Holland if She Refuses Extradition of the Former Kaiser

The Hague, Holland. — The Deutsche Allgemeine Zeitung some time ago wrote that the German people would be grateful to Holland if she adhered to the policy of refusing the extradition of the former Kaiser. A union of German officers, the league of German sergeants, various women's leagues, and so forth, asked the Dutch Government to refuse extradition, expressing much gratitude if their request were conceded.

All these movements give better proof of sentiment than of tact, and as the Handelsblad points out, show a misapprehension of the situation. There can be no question of generosity or of thanks in this matter. If Germany had reason to thank Holland, the entente would have reason to reproach her with not having fulfilled their wishes. But the whole question is simply one of law. Holland adheres to right as she did during the whole war. At most Germany may thank the Dutch law for being what it is, and the entente may regret that it is not different.

The Nieuwe Rotterdamse Courant, discussing the extradition question, points out that, if the court that is to judge him is to be formed by the entente from amongst their own men, whatever guarantees the former Kaiser is given, the proceedings can only end in his being found guilty. If it could be proved that those in St. Petersburg or Paris who in 1914 had to decide for war were as guilty as the defendant, and the London Judge recognized this, the whole basis for the peace treaty would lapse and the peace treaty itself be automatically condemned. The guilt of the former Kaiser cannot be judged without fixing the responsibility for the war.

### BABY HAD DIARRHOEA WAS GIVEN UP

DR. FOWLER'S  
EXTRACT OF WILD STRAWBERRY  
CURED HER

Mothers should look well after their children during the hot summer months, as this is the time of year when the young ones are liable to all kinds of bowel complaints.

If your children have any looseness of the bowels do not experiment with new and untried remedies. Get one having stood the test of time. Dr. Fowler's Extract of Wild Strawberry has been on the market for the past 74 years. Don't accept a substitute and perhaps endanger your child's life.

Mrs. Willis Coupland, Sundridge, Ont., writes: "About four years ago my little girl, then a baby two months old, took diarrhoea. I took her to the doctor, but to no avail. After he had given her up, I read of Dr. Fowler's Extract of Wild Strawberry and immediately got a bottle. Within two days she was improving fast. I cannot ever praise it enough. I hope some poor sufferers will see this letter and lead them to a friend indeed." Price 35 cents. Put up only by The T. Milburn Co., Limited, Toronto, Ont.

### Mounted Police Strength

For First Time in History Now in Excess of Sixteen Hundred

Regina, Sask.—For the first time in the history of the force, the strength of the R.N.W.M.P. is in excess of 1,600 all ranks. Shortly after the outbreak of the war 500 men were taken on for a period of one year, bringing the strength to more than 1,500.

At the expiration of the year those men enlisted in various units when they learned there was no chance of the force going overseas as a unit. Continued enlistments and drafts brought the force to low ebb about a year ago.

### Airship Program Reduction

London, England.—In accordance with the government's policy of economy, it has been decided to reduce the airship program, and work on several airships of the R-34 class which were nearing completion has been stopped. Certain airships and airship stations are to be placed at the disposal of commercial firms for the purpose of the development of commercial flying.

### Order Farms Seized

Berlin.—The Prussian minister of agriculture has empowered the local communities to seize farms whose owners refuse to enter labor contracts with their employees, or who fail to live up to the wage scales and where terms ended by contracts. The lands to be seized are to be administered by the respective communities for the common good.

The average woman is shy—when it comes to telling her age.

### Breathe Deeply, Then Listen For That Bronchial Wheeze

Dangerous to Neglect Troubles  
in the Chest, Throat or Nose  
at This Season

Rough, wheezy breathing means danger ahead. Every day you defer treatment makes it harder to cure.

Don't delay. Bronchial and lung troubles are all too frequent. Start today with "Catarrhazone," breathe in its pure balsamic vapor. Let its healing fumes do for you what stomachic medicine never can. Nothing so certain as a Catarrhazone Inhaler to strengthen a weak throat, to rid you of Bronchitis, to drive out catarrh, coughs and colds. Use Catarrhazone to prevent, to cure your winter ills. Physicians endorse it, hospitals use it. Thousands swear by it. Two months' treatment, large size, \$1.00; smaller sizes 25 cents and 50 cents, all dealers or The Catarrhazone Co., Kingston, Canada.

### Odd Museum

#### In Switzerland

Composed of Unpatented Inventions for Use of Smugglers

An odd museum accumulated in Switzerland during the war was composed of unpatented inventions for the use of smugglers in passing the frontier into Germany. Here arrived in due season, though after nobody knows how many trips across the border, the double petticoat of waterproof cloth in which the yeoman could carry alcohol or other quid, and many other ingenious concealments devised for the same purpose. An innocent-looking bundle of newspapers might be hollowed out to hold a metal container; an ordinary-looking trough for mixing mortar or cement might have a false bottom under which was concealed its liquid cargo of contraband; and in one case an old-fashioned carriage was discovered whose seat and floor were both hollow and loaded with supplies for the Germans. Rubber was one up in rolls of cloth, and nickel and other metals were deposited in the hollow sections of corrugated cardboard wrapped around some innocent article which could be sent through the post office. But probably the most successful method of smuggling, within its liquid limits, was the triple line of pipes unearthed by the Swiss authorities leading downhill from a frontier cottage and over the line into Germany. In the great total, however, all this ingenuity was more profitable to the smugglers than to the blocked nation, for it had no practical effect in reducing the effectiveness with which Germany had been cut off from the outside world.

### Bolshevik Brutes

Unbelievable Stories of Cruelty Come From Russia

London.—Advices from Odessa state that General Smirnov, of Fort Arthur fame, was among the rescued hostages there. The majority of the victims of the Bolsheviks were shot in a courtyard. The headquarters was a garage and the buildings around it were pitted with bullet holes. One hundred empty vodka bottles were found in one cellar, showing that the executioners were stimulated before their ghastly work. One open cellar, twenty feet deep and overlooked by a window from which the Bolsheviks had fired upon the helpless hostages with rifles, was packed with bodies, including several girls in their teens.

### Saskatoon Buys Stock

Regina, Sask.—The government of Saskatchewan will send out buyers at once into drought-stricken areas to save slaughter by the farmers of high-grade breeding stock for lack of feed. The government will buy all good stock and resell it to those who are able to feed it.

### Open Northern Lands To Ranchmen

Grazing Laws to Be Changed, According to Interior Department News

Ottawa. — The Department of the Interior has announced important changes in the regulations regarding grazing leases which are of particular interest to the West. The drought conditions which have prevailed in the southern portion of the prairie provinces have resulted in representations being made to the department by the possessors of small herds of from 50 to 500 cattle, for permission to move to lands farther north where better grazing facilities offer. Changes have been made in the grazing regulations to permit of this. There are large areas of land in these northerly prairie districts which, because of remoteness from settlement, liability to frost, or swampy or gravelly character of the soil, are not adapted to agricultural production, but which are, nevertheless, quite suitable for grazing purposes. The Minister of the Interior, Hon. Arthur Meighen, after careful consideration of the representations made, decided it would be promoting the best interests of this region as a whole if ranchers who wished to establish themselves permanently upon such areas and who have the proper qualifications, were permitted to migrate and settle there. In no case, however, will this arrangement be allowed to interfere with any promising movement to settle farmers on lands suitable for agricultural purposes.

Under the present grazing regulations leases are limited to a term not exceeding ten years, and to an area not larger than 12,000 acres, and in no case may a lease be issued to other than a British subject. With these conditions in force it was demonstrated that ranchers of the kind desired would not move their herds and establish their homes in the more northern country, where climatic conditions were such that they would be compelled to provide fodder for the winter months and to erect corrals and sheds for the protection of their stock, unless greater permanency of tenure were offered and in some cases, owing to sparsity of vegetation, a larger area per head of stock.

### Do Not Want Canadians to Remain in England

London.—The proposal to establish a permanent hostel for the benefit of Canadian soldiers who have taken their discharge in England does not meet with much approval from the Canadian authorities here. The opinion is prevalent that many of these men and their wives who have decided to remain in England will in a couple of years or so be equally anxious to return to Canada. One authority says that at the present time a certain class of demobilized soldiers, who have been in England during the past five years are a bit dazzled at the wages now being paid, forgetting that the cost of living is steadily mounting. It is expected that joint British and Canadian government action will eventually have to be taken over this matter.

"If I'm disturbing you, father, I'll stop. I'm only practicing to kill time," said the young girl, pictured in Judge.

"Better stop, my dear, I think you've killed him."

Visitor: "Is your baby intelligent?"  
Father: "Intelligent! Why, if she wasn't she'd never be able to understand the language my wife talks to her!"

He: She asked me if we were engaged, but I told her I was your friend, plain and simple.  
She: You needn't have said you were simple, too.

### EDDY'S Paper Specialties

THE makers of the famous Eddy Matches are also makers of a long line of Paper Specialties. It is likely that you are using some of these products every day — perhaps without knowing it. The next time you buy TOILET PAPER, PAPER TOWELING or PAPER SERVETTES look for Eddy's name. It is your best guarantee of satisfaction and the best possible value for your money. Our experience of more than 60 years in business is your safeguard.

The E. B. EDDY Co. Limited  
HULL, Canada

Washbasins, Pails, etc.

### Dismantling Of German Airships

Some Were Destroyed During Last Weeks Of War

Berlin, Germany.—Neither the Imperial Air Office nor the War Office have vouchsafed any comment as yet upon the allied press report of the destruction of Germany's remaining Zeppelins. The former department has denied any knowledge of the matter, but the Berlin papers state on its authority that some of the German airships which were to be handed to the Allies were dismantled during the last weeks of the war as being of no further use for military purposes. Also that seven others were destroyed by their own crews about the time of the sinking of the German fleet at Scapa Flow, although nothing was published in the press at the time.

### Sure! High Heels Cause Corns But Who Cares Now

Because style decrees that women crowd and buckle up their tender toes in high heel footwear they suffer from corns, then they cut and trim at these painful pests, which merely makes the corn grow hard. This suicidal habit may cause lockjaw, and women are warned to stop it.

A few drops of a drug called freeze-one applied directly upon a sore corn gives quick relief, and soon the entire corn, root and all, lifts out without pain. Ask the drug store man for a quarter of an ounce of freeze-one, which costs very little, but is sufficient to remove every hard or soft corn or callus on one's feet.

This drug is an ether compound and dries in a moment and simply shrivels up the corn without inflaming or even irritating the surrounding tissue or skin. Clip this out and pin on your wife's dresser.

Tapping Saskatchewan River  
Regina, Sask.—The local Board of Trade will consult the provincial government on a prospect to tap the Saskatchewan river at the elbow to procure a water supply for Moose Jaw and Regina. Regina feels the need of an abundant and better supply. The cost per capita is estimated at less than that necessary in Greater Winnipeg.

Take your time, but keep your hands off the time of busy people.

**PILES**  
Do not suffer another day with itching, bleeding, protruding piles. No surgical operation required. Dr. Chase's Ointment will relieve you at once and as certainly cure you. 80c. a box; all dealers, or Edmanson, Bates & Co., Limited, Toronto. Sample box free if you mention this paper and enclose 2c. stamp to pay postage.

## Use More Corn Syrup For Preserving

Real home-made preserves, and the woman who puts them up—how they're both appreciated. Preserving is not difficult to-day. The LILY WHITE way has removed the uncertainty.

Most of your preserving troubles have come from using sugar alone. Even the beginner can count on success if she will use half LILY WHITE and half sugar. LILY WHITE blends the sugar with the fruit and makes preserves that will never crystallize.

LILY WHITE and CROWN BRAND are both Dandy for Candy. Your grocer sells Crown Brand and Lily White Corn Syrup in 2, 5, 10 and 20 pound tins. THE CANADA STARCH CO., LIMITED, MONTREAL.

Write for Booklet of Recipes.

### U.S. Wheat Crop

#### Below Last Estimate

Corn Yield Is Much in Advance of September Report

Washington.—Further decline of the spring wheat crop reduced the prospective production 17,000,000 bushels during August, but corn had a good month and shows a prospective output of 70,000,000 bushels larger than indicated last month, according to the United States government's September crop report just issued.

The condition of the corn crop was described as irregular, ranging from extremely good to extremely bad, but for the country as a whole, a fair sized crop of good quality is in prospect, totalling 2,858,000,000 bushels. The loss in the spring wheat crop was caused by blight, rust, scab and grasshoppers. The total crop of spring and winter wheat now is placed at 923,000,000 bushels, which is more than 300,000,000 bushels below the crop as forecasted from conditions prevailing in June.

### Ex-Kaiser Not Wealthy

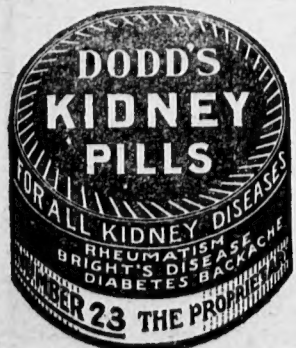

Total Amount of Cash When He Fled to Holland Was 650,000 Marks

Berlin.—The total amount of cash former Emperor William had on his person when he fled to Holland was 650,000 marks, according to a statement made by Dr. Albert Suidekum, Prussian minister of finance.

Dr. Suidekum also declared that a careful investigation had failed to prove that the former German imperial family has capital "planted" abroad. The minister added that he expected shortly to announce the proposed plan of settlement of the Hohenzollern family's financial affairs. This would not be dictated "by pettiness or malice" and would not call forth unjustified criticism.

If you once get into the habit of telling the truth you will find it much easier than lying.

If you would have a peaceful home all you have to do is to pay the freight and let your wife run it.

### French Naval

#### Base Abolished

Rome, Italy.—The Italian papers state that the Americans and their ship Olympia have left Spalato, and that the French naval base at Fiume has been abolished. The military force at Fiume is stated to be reduced to a brigade consisting of a squadron of British, and a battalion of French, under the command of General Pittaluga.

### Other Tablets Not Aspirin At All

Only Tablets Marked With "Bayer Cross" Are Aspirin

If You Don't See the "Bayer Cross" on the Tablets, You Are Not Getting Aspirin — Only Acid Imitation

Genuine "Bayer Tablets of Aspirin" are now made in Canada by a Canadian Company.—No German interest whatever, all rights being purchased from the United States Government.

During the war, acid imitations were sold as Aspirin in pill boxes and various other containers. The "Bayer Cross" is your only way of knowing that you are getting genuine Aspirin, proved safe by millions for Headache, Neuralgia, Colds, Rheumatism, Lumbago, Neuritis, and for Pain generally.

Handy tin boxes of 12 tablets—also larger sized "Bayer" packages can be had at drug stores.

Aspirin is the trade mark, registered in Canada, of Bayer Manufacture of Monoaceticacidester of Salicylic acid.

Business women should never marry men who are unable to cook and sew on buttons.

Corns and warts disappear when treated with Holloway's Corn Cure without leaving a scar.

Don't be ashamed to begin life with a small show; you may eventually be the owner of a three-ring circus.

Minard's Liniment for sale everywhere.

German Pianos All Ready

The report comes from Great Britain that the Huns have 43,000 pianos ready to dump on the markets of the world, and at much cheaper prices than those existing now. This is a sharp reminder that the Huns are looking out for export trade and that it is necessary for the British Empire to get ahead of them. The Huns "have got" to work and work hard in order to meet their indemnities, and this means that other nations will have to work a little bit harder than they. These pianos are playing a tune which Canada should listen to.—Kingston Standard.

W. N. U. 1281

## Facing The Facts

It Is the Duty of Everyone to Be Economical

Days of scarcity are upon the world. It is all very well for men to look through some of our large stores and note the apparently large supply of clothing and tell others that they see no diminution in the stocks. Yet such a judgment is superficial. As never before, civilization has its goods in the front windows. Salesmen everywhere are putting their best foot forward, not with the intention of deceiving anybody, but of keeping their doors open. Here and there colossal fortunes have been made. At the same time hundreds of weaker shopkeepers are being driven out of business. While business for the most part is healthy, not a few tradesmen are on the anxious seat and the great mass of buyers may as well recognize this. Dealers simply cannot get the goods they want in anything like the quantities they desire. And this for two reasons. First, there is the demand of the peoples who have been stripped of everything by the war. Second, the facilities for the production of goods are away below par. War has simply turned production upside down. The turning for five years of thirty millions of people from the work of producing goods that satisfy human wants to the work of destruction is a disaster too colossal to be corrected by a stroke of a pen or in a year or two. Strain and loss from a world war is not recovered from in a summer vacation or at the flat of any government.

Further, extravagance has not been curtailed. An inflated currency has led many people to think that because they had dollars they were rich. Yet bank bills will neither clothe, shelter nor feed anyone. Money is part of the mechanism of exchange and that is all that it is. And it is commodities, food, clothing, building materials, that are scarce. Because dollars are so abundant and commodities are so scarce that there are not enough commodities to anything like meet the demand purchaser are obliged to pay out a number of dollars out of proportion to normal times.

Obviously, therefore, it is the duty of everyone to be economical in the use of food, clothing and building material. The nation that will lead ten years from now is the nation that in these days is devoting to the best use the things that satisfy fundamental human wants. The waster is the foe of the commonwealth. No one, be his dollars few or many, can afford to waste anything. Canada is not confronted with famine. But city people will do well to remember that average crops this year are so exceptional, even among our best farmers, that when such a crop is found it is a matter of comment. Not only is this true, but in many localities crops are practically a failure. A word to the thoughtful is sufficient.

—St. Thomas Times-Journal.

### Persians Massacred By Bolsheviks

Details have reached London of the murder by Bolsheviks of Ibadullah, the Persian consular agent at Armavir, Armenia, together with 310 Persian subjects, of whom 270 were Mohammedans and 40 Christians. When the volunteer army evacuated Armavir July 27, according to the reports, the Bolsheviks called Ibadullah out, shot him down, and mutilated his body with swords and bayonets. The Bolsheviks then hived together all the Persians who had taken shelter under the protection of the Persian flag and shot them en masse with machine guns and buried them, partly in the consular graveyard and partly in a common pit.

"Liquor Goes Down to Defeat." — Jackson Citizen-Patriot. It may be Michigan. It goes the other way here.—Chicago Tribune.

### "Cold In the Head"

Is an acute attack of Nasal Catarrh. Persons who are subject to frequent "colds in the head" will find that the use of HALL'S CATARRH MEDICINE will build up the system, cleanse the blood and render them less liable to colds. Repeated attacks of Acute Catarrh may lead to Chronic Catarrh. HALL'S CATARRH MEDICINE is taken internally and acts through the blood on the mucous surfaces of the system. All Druggists 75c. Testimonials free. \$100.00 for any case of catarrh that HALL'S CATARRH MEDICINE will not cure. F. J. Cheney & Co., Toledo, Ohio.

### Value Of Mixed Farming

Steady Growth of Saskatchewan's Dairy Industry

The output of creamery butter in Saskatchewan this year will easily exceed one million pounds and will be worth about \$600,000. It will be seen, therefore, that Saskatchewan farmers do something else besides growing grain of a high quality. The growth of the dairy industry in this province has been remarkable. In 1916, 381,993 pounds of creamery butter were manufactured, in 1917, 465,717, and last year 667,285 pounds.

## Preserving Fruits And Vegetables

Valuable Bulletin Issued—By the Department of Agriculture

In canned goods there are two kinds of spoilage. The first is called "flat sour," which includes all forms of bacterial growth that develop within the food. The second type of spoilage to guard against is mould, a plant growth that is distinctly different from the bacterial growth. Moulded foods are seldom more than surface affected, because air is necessary for its growth, but the "flat sour" spoilage means that the entire can must be discarded. Bulletin No. 93 of the Dominion Experimental Farms, "Preservation of Fruits and Vegetables for Home Use," which may be had on application to the publications branch, Department of Agriculture, Ottawa, gives full information on the various methods of canning, including old and valuable recipes as well as new ones, which have been found valuable. Canning has become the most popular means of preserving large quantities of fruit and vegetables, and since these are plentiful during the summer months and at other times difficult to obtain, it is important to preserve quantities during the growing season for use in winter. Moreover, the use of an abundant supply of fruit and green vegetables is essential to health at all seasons of the year.

## Poles Make Use Of Tanks

London, England.—Poles have captured the fortified town of Bobruisk, 85 miles southeast of Minsk, according to an announcement by the Polish authorities. They took 500 prisoners, and Poles used tanks for the first time. The enemy retreated to the eastern bank of the Berezina river, destroying the bridges.

## KEEP CHILDREN WELL DURING HOT WEATHER

Every mother knows how fatal the hot summer months are to small children. Cholera infantum, diarrhoea, dysentery, colic and stomach troubles are rife at this time and often a precious little life is lost after only a few hours illness. The mother who keeps Baby's Own Tablets in the house feels safe. The occasional use of the tablets prevent stomach and bowel troubles, or if trouble comes suddenly—as it generally does—the Tablets will bring the baby safely through. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Triumphs Of British Shipbuilding

Remarkable Results Achieved in Spite of the Stress of War

It is known to everybody that the construction of new British naval vessels was carried through with feverish haste during the war, but the world is only now becoming acquainted with the remarkable results which were achieved in spite of the stress of war conditions. In peace time it is the custom of the British Admiralty not to accept vessels except after exhaustive preliminary trials, naturally, also, it is customary for the shipbuilders to take minute care of every detail of the engines and other equipment. War production, however, reached so high a stage of efficiency that the Admiralty was able to dispense with these trials. High-powered vessels went to sea after a basin trial and steamed at full speed in a very short time. H.M.S. Resolution, for example, steamed straight out into the North Sea before daylight, reached her full power within one hour, and ran without a hitch to her station in the Firth of Forth. Many battleships and cruisers went to sea fully commissioned and ran the necessary trials on their way to the appointed naval base. One particular destroyer raised her full power within seven minutes of leaving the piers on her first voyage. Only marine engineers, who know how the trials of a well-built ship may be ruined by a trifling flaw in one of a multitude of details, can fully appreciate the meaning of this series of successful flying starts from the fitting-out basin. They form a magnificent tribute to the soundness of British engineering. Nothing but the best designs, the most accurate construction, and the most skillful assembling could have produced such a triumph.

### Russians Promised Relief

Berlin.—German reports from Riga declared that General Gough, of the British army, has proclaimed to the population of Petrograd that an attack is about to be made upon that city.

The reports quote the proclamation as continuing: "As soon as Petrograd has been freed from Bolshevik tyranny food will be sent."

## Deny Reports Of Montegrin Rising

Feeling For National Unity Has Not Been Weakened

London, England.—The Serbian Press Bureau in London is authorized once more to deny reports of a rising in Montenegro against the Jugo-Slav Government. Despite the agitation and propaganda conducted by an entourage of the former King Nicholas and his friends, the bureau states that the feeling for national unity in Montenegro has not been weakened and that Montenegrins are unanimous in their decision to fight those who would disturb the union between Montenegro and the new triune kingdom of Serbs, Croats and Slovenes.

### Ask Leniency for Canadians

London.—A petition is being promulgated here for a reduction of the sentence of 12 months upon several Canadian soldiers in connection with the Epsom riots. When Justice Darling passed sentence, he excused the prisoners from hard labor on account of their war service, and added that there seemed to be no difference between their conduct and some of the people belonging to this country, except that the latter were, if anything, worse.

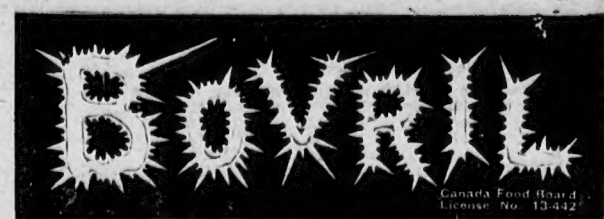

Arguments were subsequently addressed to the court of criminal appeal for a reduction of sentence, but without effect.

Your Asthma, Too.—The efficacy of Dr. J. D. Kellogg's Asthma Remedy is not something that is merely to be hoped for; it is to be expected. It never fails to bring relief, and in your own individual case it will do the same. So universal has been the success of this far-famed cure that everyone afflicted with this disease owes it to himself to try it.

Two hundred and fifty miles of British war medal ribbon are to be issued to men and women entitled to these decorations through the recent edicts of the King.

If all the churches were taken away and the Sunday schools closed, how much would your property be worth?

Women who talk most usually mean what they don't say.

## Indian Farms Do Well

Saskatchewan Indians will reap a fair crop as the result of the extensive greater production scheme on which they entered a year ago, under the stimulus of the war. In 1918 much raw prairie was plowed in readiness for seeding this year. Although drought has proved a handicap in some of the reserves, in the main the crop has turned out well, and an average of fifteen bushels of wheat an acre will reward the red men for their efforts.

## St. Joseph, Levis, July 14, 1903.

Minard's Liniment Co., Limited. Gentlemen,—I was badly kicked by my horse last May, and after using several preparations on my leg nothing would do. My leg was black as jet. I was laid up in bed for a fortnight and could not walk. After using three bottles of your MINARD'S LINIMENT I was perfectly cured, so that I could start on the road. ## Wants Prince On Tiger Hunt

A strange letter reached the Prince of Wales not very long since from a small Indian village at the foot of the Himalayas. It was written on a piece of dried tiger skin, apparently with a pointed stick and some red dye.

The writer stated that his father had had the honor of escorting the late King Edward when he went tiger shooting in the jungle, and expressed the hope that should the Prince ever feel inclined to attempt the ascent of the Himalayas, the latter would honor him by accepting him as one of the guides for that somewhat hazardous adventure.

## The Western Rye Grass For Hay

One of the biggest problems confronting the farmers on the open plains in the dry farming sections is that of providing hay for their horses and other live stock. In many districts the greater part of the wild land has been either broken up or used for pasture, and farmers are anxiously enquiring for some grass that will provide them with sufficient hay for their requirements. No grass has yet been found that will give good crops for a lengthy period of years and for this reason it is advisable to consider establishing some system of crop rotation and include in the rotation some grass to hay and if necessary for pasture.

The success attained in the Gleichen district this dry year with rye has induced many to sow it this fall, and many are still engaged in the occupation hereabout. Those who have experience state that there is still time to sow it and that it is alright so long as it starts growing before the heavy frosts.

Out of all the grasses tested on the Scott Experimental Station, Western Rye Grass has proven to be one of the hardest, most drought resistant and most easily eradicated. From the standpoint of yield it is at the top of the list, averaging over two tons per acre for the past three years. On the fields the yields were higher and have in some seasons been as high as half a ton per acre and up to one and three-quarters. Nevertheless it has been found that Western Rye grass grown for hay in the crop rotation has shown some profit and in addition, breaking up Western Rye grass sod has cost less per acre than has the ordinary summer-fallow. This is due to less weeds in the sod land. It is also worth while observing that wheat grown after summer-fallowing the sod land has given heavier yields than when sown after a grain crop but the difference is not nearly as great as would be expected. Where barnyard manure has been turned under and grass grown in succeeding years the yield has been quite equal to where the grass has been sown on fallow land.

Seaketchewan must have got into a tremendous state of excitement over the Prince's visit, judging from some of their newspapers. At a certain town the prince passed through, between Saskatoon and Edmonton, the local editor got everything belted up in his excitement, as is evidenced by the mixing up of a wedding and an auction notice. It has been sent to us for reproduction. Here it is:

"William Smith, the only son of Mr. and Mrs. William Smith, and Miss Lucy Anderson were disposed of at public sale on my farm one mile east, in the presence of many guests, including two nuns and twelve head of cattle. Rev. Jackson tied the nuptial knot for the parties, averaging 1250 pounds on the hoof."

"The beautiful home of the bride was decorated with one silky raven, one freed grinner and two sets of work harness, nearly new, and just before the ceremony was pronounced the Mendel & Sons march was rendered by one, much cow and one sheep, who carrying a couple of bridal roses in her hand, was beautiful. She was wearing light spring gown, two crates of apples, three racks of hay, and one quadruple of muslin de soie, trimmed with about one hundred handfuls of apples. The bride gazed left, right, down an extended tree. Terms special cash."

## WALKING UPSTAIRS

It is Healthy Exercise if Properly Done

The act of walking up or down stairs can be made beautiful or awkward and ugly, health-giving or health-burting as the choice. It is an exercise which most people have to indulge in many times during a day and when properly done can be made extremely beneficial providing a person is in a reasonably healthy condition and is not suffering from organic heart trouble.

In going upstairs as in going down, let the motion bear the weight of the

Walk upstairs this way for grace and health.

body. The step is a shock absorber and as in any construction which is properly planned the arch is the weight bearer.

Carry the body well up out of the hips, with expanded chest and poised head. Do not let the tall man's waist upstairs with the head drooping down on the chest.

Take big deep breaths and then try going upstairs with the body held well

This is the harmful way.

poised and you will find that dragging feeling is absent. However, you must tread lightly over the stairs many times a day. Will find that by putting their mind on it by remembering to hold the body properly that they will be able to go through with the day's tasks and yet be free of backache and shooting pains or a dull ache in their limbs when evening comes.

For people who find themselves running into fresh stair climbing, property done, will be found an excellent exercise for the purpose of reducing or keeping one's weight down. It will also benefit the lungs if deep breathing is combined with it.

Why waste your time talking to one customer when you can tell the same thing to several hundred at one time by an ad. in The Call.

## BUY AN IRRIGATED FARM FROM THE CANADIAN PACIFIC RAILWAY

### BECAUSE:

Irrigation makes the farmer independent of rainfall, and in sure good crops, not occasionally, but every year.

Irrigation makes possible the successful culture of alfalfa, the king of fodders, which ensures good returns in dairying and mixed farming.

Irrigation means intensive farming and close settlement with all the advantages of a densely populated agricultural community.

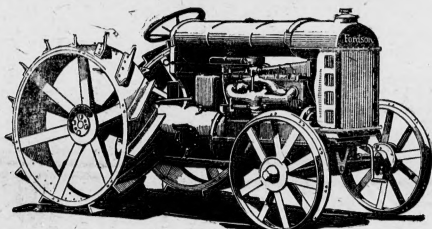

Irrigation in the Canadian Pacific Railway Irrigation block is no longer an experiment, the years that it has been tried having beautifully demonstrated its success wherever it is intelligently applied.

This is the most liberal offer of irrigated farm land on record. For full particulars apply to

ALLAN CAMERON, Gen. Supt. of Lands  
Canadian Pacific Railway, Dept. of Natural Resources, 928 1st. St. E.  
CALGARY, ALBERTA

You can buy irrigated land from the Canadian Pacific Railway at prices up to \$50 per acre, with 20 years to pay and the privilege of a loan of \$2,000 for improvements (8% interest) no principle after first payment until end of fourth year, reduced interest if settlement conditions are complied and no water rental for first year. Contract can be paid off before maturity if desired.

## Annual Meeting Peoples Meat Market Sept. 27th

Gleichen, September 11th, 1919.  
Gleichen Call:

The letter in your issue of the 10th asking about the stockholders annual meeting of the Peoples Meat Market, Ltd., has just been called to my attention and I am glad to reply.

At a meeting of the directors of the company held on the 5th, I was instructed to call the meeting for 2 p.m. on Saturday, the 27th.

It was thought by the directors that we would stand a better chance of getting a good turnout of the stockholders if the notices of the meeting were not mailed until a week prior to the date of meeting.

We were not able to get the statement of accounts completed until the harvest was in full swing and it has been difficult to set a date when we could expect a full attendance in view of the fact that most of the stockholders are farmers, and are likely to be very busy for some time yet.

As to the conduct of the business we are still facing the same difficulty which I saw when Mr. Davis and Mr. Barstich first proposed to use that the farmers of the community buy the business, viz., the proper management.

We have made an honest effort to get a good capable man who would take an interest in the business and run it for us, but up to date we have not been able to get the man and we want the help of every stockholder, or customer, to help us find the right man and we will need the help of every one to make the success of the business that it should be.

The writer only undertakes the management because we could not find a suitable man for the place and I am free to confess that I have made many mistakes.

We may have made a start in the direction we hoped to work when we took over the business but we have come a long way short of the mark. I hope to get every stockholder out at a meeting and would be glad if we could have every customer present. Yours respectfully,  
People's Market Ltd.

Secy-Treas.

### "MRS." OR "MISS"?

Feddie Refuse to Change This Part of Name When Married

I wonder are we women progressing or retrograding, asks Louise Heger. For instance, is it a sign of progress for a woman to want to call herself Miss, or are we retreating to the days of Eve, when such things as mere nomenclature didn't matter and it was all the same to Adam whether his wretched lizard wife, or Miss so long as she herself wasn't mislaid?

No doubt you have all read of the strange widow who, after only enough time to Atlantic City at the port of call in which to throw off her marriage garment, and insist upon being plain Miss. Atlantic City all places in the world, where there are more wedding rings to be met with between Saturday and Monday than such hard things as wheat! Personally, it should have thought a much better holiday could be spent as a Mrs. than as a Miss.

### LOST AND STRAYED

During the fiscal year 1918 some thing like \$2,000,000 worth of rubber goods, including tires of all kinds, belting, fire hoses and other rubber products were imported into Canada. The buying abroad of this great amount of rubber goods is nothing but self-deception. The rubber goods industry in Canada has reached a state of excellence that no other country can surpass. There is no more need for a Canadian to purchase rubber goods of the kind indicated above in a foreign country than there is to buy foreign wheat. Both commodities are produced in Canada, equal in quality to anything produced elsewhere. Next time you are in a mood but for something in rubber goods see it that you buy the products of any one of Canada's rubber goods manufacturing factories. The greater part of the money you spend will be kept over by the manufacturer to be employed in the form of wages that will be spent by them, and through various channels find its way back to you. Keep your job of properly buying on rubber time "Made in Canada."

## ECZEMA IN RASH CUTICURA HEALS

Very Itchy and Burned. Troubled Six Weeks.

"Our daughter's face came out in a rash that we were told was eczema. Her cheeks got sore and she rubbed causing loss of sleep. The breaking out was very itchy and burned so that I had to tie gloves on her hands to keep her from scratching."

"This trouble lasted about six weeks before I used Cuticura. I used one large box of Cuticura Ointment with two cakes of Cuticura Soap when she was healed." (Signed) Mrs. H. Stares, Blenheim Rd., Galt, Ont.

Cuticura Soap, Ointment and Talcum are ideal for daily toilet uses. For free sample each of Cuticura Soap, Ointment and Talcum address postcard to: Cuticura, Dept. A, Boston, U. S. A. Sold everywhere.

## Good Roads And Education

In a report made to the Minister of Education for Saskatchewan, Mr. D. S. McCannell, chief attendance officer in the province, to whom is entrusted the administration of the Compulsory School Attendance Act, says, in part, as among the reasons assigned for the absence of children from rural schools: "Impassable roads, but this is a condition which will improve as the province grows older."

In previous issues, the writer of this column has dwelt upon the importance and necessity of good roads in these western provinces, and also upon the absolute necessity that farm boys and girls should be given the best possible education and kept in school as long as possible. In this article we hope to make clear the bearing which the provision of good roads has upon the successful carrying out of a better schools policy and a higher average attendance at school.

There are four main groups under which every problem treated as peculiar to rural communities are, or can be properly grouped:

First: Greater production or more intensive farming, which is primarily a question of more population on the land.

Second: Proper educational facilities for the boys and girls, or provision for a high school education without forcing parents to leave the farm at the period of their greatest production in order to give their children an even start with the town boy and girl in educational equipment.

Third: Proper social and amusement facilities for the entire family as a primary means of keeping them contented with life on the farm.

Fourth: The development of a community spirit, hearty co-operation in a social and economic way, as the best means for guaranteeing the prosperity and contentment of all.

Thus, roughly, do we group the various topics which concern the relations of the people one with another, as distinguished from those which deal with those things that concern the individual farmer, such as better crops and improved livestock.

Now analyze this proposition: The solution of all these problems, the one final answer to them, the one thing that will lay the foundation that will make them possible, and leaves but details in connection with each to be arranged, but without which success cannot be achieved, is a passable system of all-the-year good roads.

In some of our more thickly populated districts in the West, a consolidated school would mean a vast improvement over several small district schools. It would be a better school in every way, and provision for high school training would be possible. But without roads for

the conveyance of pupils the consolidated school and rural high school is impracticable, and many of such schools established in the United States have been abandoned solely because of the impossibility of transporting the school children over the existing roads.

But, it is said, it will take money to build roads. Certainly it will, and lots of it. But the city dweller cannot live in an eight or ten-room house with electric lights, hot water and other modern conveniences for the same outlay that he can live in a cave. He pays for those conveniences and he finds that it pays him to pay for them. So with good roads—they will more than pay for themselves.

Here in Western Canada we are somewhat inclined to look upon the Province of Quebec as backward and slow because we are not fully informed of what is transpiring there. Within the past fifteen years Quebec has been forging ahead in general agriculture, dairying and livestock raising faster than Ontario, and in some respects more rapidly and substantially than these Western Provinces. Industrially and commercially it is going ahead by leaps and bounds, and a complete transformation is taking place educationally.

What is the basis for this development in Quebec? Everyone who has studied it has but one answer: Good roads. The Province of Quebec has now the best roads in the Dominion, as far as it has gone, and it means to continue until every farmer can get his goods to market, his children to school, and his family to church, without a breakdown or being mired.

Some years ago the Provincial Government asked for authority to spend \$20,000,000 on roads. Some people who think the French-Canadian habitant is penniless and unprogressive might give some thought to the fact that they enthusiastically gave the necessary authority. That \$20,000,000 has been spent, and Quebec now leads the Dominion in good roads. Two or three months ago the Government appealed to the people for a new mandate to keep on spending millions on good roads, the result being that a majority of Government supporters were returned by acclamation.

(Note: Further consideration of this important subject will be reserved for next week.)

## Hollanders Find Kaiser Expensive

Has Already Cost Our Country A Total Of 20,000

American. — Under the headline "An expensive foreigner in Amerongen" the Amsterdam Handelsblad, a copy of which has been received here, says nineteen policemen, whose salaries total 75 guilders daily have been guarding the former German emperor since November. The ex-Kaiser has already cost our country a total of 20,000 guilders, says the newspaper, "truly an expensive foreigner." It is understood here that there has been no change in the status of the former German emperor with the Netherlands government and that he is still confined to certain limits.

Report has it that he expects to bring to Holland his own furniture from German castles to furnish his newly purchased home, the house of Doorn, if the German government gives its consent.

Liman Von Sanders in Germany Berlin, Germany.—Liman von Sanders has reached Germany from Malta, whence he was conveyed in a British ship to Venice. In a statement to a newspaper representative, he denied any responsibility for the Armenian massacres.

British Forces Evacuating Archangel London.—Evacuation of Archangel by the British expeditionary forces is in progress, it was officially announced here.

## The Prince Invests In War Savings Stamps

Delighted to Find Stamps on Sale Same as in England

Not the least amongst the many gracious acts performed by the Prince of Wales during his brief stay in Ottawa was to invest in a complete certificate of War Savings Stamps. His Royal Highness was delighted to find that in Canada War Savings Stamps are on sale similar to those that are so popular in England. It was his intention to call at the post office and make his purchase of the stamps in the regular manner, during his stroll around Ottawa incognito, but pressure of other engagements prevented this being done. The stamps were therefore sent to him at Government House, and the sale, duly made in cash by the secretary of the National War Savings Committee. The Prince was quite willing that his investment should be made known, and kindly sent the following letter, with permission to publish it, to Sir Herbert B. Ames, chairman of the National War Savings Committee:

Government House, Ottawa, 1st September, 1919.

"Dear Sir Herbert, "I am pleased to be the holder of a Canadian War Savings Certificate. "I am delighted to find that in Canada you have War Savings Stamps on sale similar to those we have in England. "I wish the War Savings campaign every success.—I remain, yours sincerely, (Signed) "Edward P."

## Ratify Peace September 20

Paris.—According to the Echo de Paris, the Chamber will ratify the peace treaty on September 10, and the Senate will take similar action on September 20.

## LEMONS MAKE SKIN WHITE, SOFT, CLEAR

Make This Beauty Lotion for a Few Cents and See for Yourself

What girl or woman hasn't heard of lemon juice to remove complexion blemishes; to whiten the skin and to bring out the roses, the freshness and the hidden beauty? But lemon juice alone is acid, therefore irritating, and should be mixed with orchard white this way: Strain through a fine cloth the juice of two fresh lemons into a bottle containing about three ounces of orchard white, then shake well, and you have a whole quart of skin and complexion lotion at about the cost one usually pays for a small jar of ordinary cold cream. Be sure to strain the lemon juice so no pulp gets into the bottle, then this lotion will remain pure and fresh for months. When applied daily to the face, neck, arms and hands it should help to bleach, clear, smoothen and beautify the skin.

Any druggist will supply three ounces of orchard white at very little cost and the grocer has the lemons.

## A Sympathetic Link

Common Bond of Sympathy in Russia Is Music

In spite of the wide gap between the radicalism of the "left wing" and the ultra-conservatism of the "right wing," there is one common bond of sympathy in Russia, and that is in music. In Russia everybody sings, and the songs of the simplest peasant are dear to the heart of the highest official as well. The officer who was in Vladivostok at the height of the revolutionary movement saw a troop of Kolchak's men who were singing a Russian song as they marched down a mountain pass, being passed by a band of Bolsheviks, who took up the air and carried it along enthusiastically as they proceeded in the opposite direction. The Bolsheviks felt that the song belonged to them quite as much as to the conservatives.

## Humor and Cash

Which humorous artist makes the most money? Is it Bruce Bairnsfather, or Heath Robinson, or Bert Thomas, or who? The question was recently raised, and as though in answer I have just heard that the young American cartoonist, Mr. "Bud" Fisher, earns about \$350,000 a year out of his pen-and-ink drawings. He owes his success largely to his two comic characters "Mutt and Jeff," whose doings run through a hundred papers every day, and are followed by some 10,000,000 readers.

## British Girls for Domestic Service

London.—It is understood that official efforts are being made to encourage unskilled girl workers now being rapidly demobilized from government offices to enter domestic service. A refusal to be trained may involve the stoppage of unemployment pay. Really skilled stenographers are unlikely to have much difficulty in securing employment.

Your secret is your servant, but give it liberty and it becomes your master.

## Great Silver Deposits Located In Burma

Chinese Worked It Until Crude Appliances Failed

London.—At a time so long ago that the very memory of it has faded Chinese prospectors, wandering over Burma, found a silver-bearing deposit and worked it until their crude appliances failed them. Then they left it.

For centuries the workings lay abandoned and unheeded. Not many years ago the deposit was rediscovered and floated as the Burma Corporation, whose shares knocked about an uninterested market at rubbish prices. Development and assay have now revealed the interesting fact that those long-departed yellow men left behind them one hundred million ounces of silver, one million tons of lead, 750,000 tons of zinc, 30,000 tons of copper, the whole valued at present prices at between eighty and ninety million pounds sterling.

Pound shares have now risen to nearly ten, and a new company is to be formed in India with a capital equivalent to fifty million dollars.

There is no radical cure for laziness, but starvation will come the nearest to it.

Miller's Worm Powders work so effectively that no traces of worms can be found. The pests are macerated in the stomach and pass away in the stools without being perceptible. They make an entire and clean sweep of the intestines, and nothing in the shape of a worm can find lodgement there when these powders are in operation. Nothing could be more thorough or desirable than their action.

## Alberta Coal Discovery

It Is Possible That Anthracite Coal Also Exists In Quantity

Twelve or more seams of high-grade bituminous coal, all of great thickness and workable, are reported to exist at the junction of the Smoky and Muskeg rivers, located north of the Canadian Northern Railway, west of Edmonton. O. S. Finnie, inspecting engineer of the mining lands branch of the department of the interior, has just returned following a month of close exploration work on behalf of the department. In addition to this high-grade bituminous fuel, it is possible, according to Mr. Finnie, that anthracite coal also exists in quantities. Samples of the product will be taken to the laboratories by Mr. Finnie, and will undergo tests for later reports to governmental authorities. There is much evidence that coal exists in great seams, and investigation proves that not only is the quantity large but the quality is also good.

"He made violent love to you, didn't he?" asked the summer girl, pictured in life.

"Dear me, no! He only wanted to marry him."

Would Aid France Berlin.—Four hundred thousand German workers have volunteered for work of restoration in northern France, according to the Vorwarts.

Minard's Liniment Cures Burns, Etc.

Caillaux Out of Prison

Paris.—Joseph Caillaux, the former premier, who has been in prison for more than a year, charged with having had treasonable dealings with the enemy, will be permitted to enter a sanatorium, the Temps says. Counsel for Caillaux requested recently that he be removed from prison on the ground that his health had been so weakened as to cause anxiety.

Previsch, pale, restless, and sickly children owe their condition to worms. Mother Graves' Worm Exterminator will relieve them and restore health.

## British Airship Plans

Let Private Firms Have Advantages With Rigid Airship

London.—The government has decided to retain only two airships of the rigid type and dispose of the others to a well-organized concern that would undertake to establish a commercial airship service. This announcement was made by Air Commissioner Seely at a conference of representatives of aeronautical and engineering firms. He added that the decision was based upon the necessity of cutting down expenses and in the belief that the best results in the future were likely to be attained by the encouragement of private enterprise.

Even a hen can scratch up trouble between neighbors.

No woman objects to embarking in a courtship.

## ROYAL YEAST CAKES

There is more energy in a pound of good bread made in the home with Royal Yeast Cakes than in a pound of meat. Bread making is a simple operation and requires no previous experience. Full instructions in Royal Yeast Bake Book, mailed free on request.

E. W. GILLET & CO. LTD. TORONTO

## Six Killed On Ship

Vancouver.—S. McRae, of Vancouver, second engineer, and five Chinese firemen were killed on the steamship Melville Dollar, of Vancouver. The nature of the accident which caused the deaths of the six men is not known here. The steamer was off the China coast at the time, having left this port some weeks ago for the Orient.

Some things are just automatically funny; for instance, a frog, duck and a man in a bathing suit.

## FREQUENT HEADACHES

A Sure Sign That The Blood Is Watery And Impure

People with thin blood are much more subject to headaches than full-blooded persons, and the form of anemia that afflicts growing girls is almost always accompanied by headaches, together with disturbance of the digestive organs. Whenever you have constant or recurring headaches and pallor of the face, they show that the blood is thin and your efforts should be directed toward building up your blood. A fair treatment with Dr. Williams' Pink Pills will do this effectively, and the rich, red blood made by these pills will remove the headache. More disturbances to the health are caused by the blood than most people have any idea of. When your blood is impoverished, the nerves suffer from lack of nourishment, and you may be troubled with insomnia, neuritis, neuralgia or sciatica. Muscles subject to strain are undernourished and you may have muscular rheumatism or lumbago. If your blood is thin and you begin to show symptoms of any of these disorders, try building up the blood with Dr. Williams' Pink Pills, and as the blood is restored to its normal condition every symptom of the trouble will disappear. There are more people who owe their present state of good health to Dr. Williams' Pink Pills than to any other medicine, and most of them do not hesitate to say so. You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Ticked Off

Cuthbert: Do you sell dog biscuits in this dirty little shop? Offended Shopkeeper: Yes, sir; will you take them away or will you eat them here?

## DEATH REPORTED

An old offender that hung on for years. Nothing touched his stony heart but Putnam's Corn Extractor and out he came, root, stem and branch. All corners cured just as quickly when Putnam's is used; try it, 25c at all dealers.

German Gold Hoard Surrendered After the conclusion of the armistice at Spa, it was decided that Germany, before being re-occupied, must deposit with the National Bank of Brussels as guarantee 370,000,000 marks (nominally \$92,500,000).

Part of this gold was placed at the disposal of the Bank of England in New York. It is now being taken from Brussels to London, whence it will be conveyed to New York in consignments of \$4,000,000 and \$8,000,000, guarded by escorts of Belgian soldiers.

## Ex-Kaiser Goes Calling

The Hague.—Former Emperor William of Germany, for the first time since he took refuge in Holland, was a guest outside Benthinck Castle. Accompanied by his wife, who made a previous visit there, and by Count and Countess Bentinck, William Hohenzollern motored to Belmont Castle, 10 miles from Amerongen, and took tea with the Countess Constant. The once imperial couple returned late in the evening to Amerongen in a closed automobile.

## Britain Needs More Modern Navy

United Kingdom And Dominions Must Furnish The Money

Vancouver, B.C.—A special cable from Sydney, N.S.W., to the Vancouver World says: "Unless the United Kingdom and the Dominions are prepared to put their hands in their pockets it will not be possible to retain for the empire that sea supremacy which every citizen of the empire knows in his heart is vital to its existence," said Admiral Lord Jellicoe in a forceful speech delivered to a large and influential audience here.

Lord Jellicoe went on to say that after reading the cable report of a letter written to the London Times by Lord Fisher, he was of the opinion that underlying Lord Fisher's demand for the scrapping of the present British navy was the idea that a bigger and more modern navy should be built.

Men listen when money talks. Probably that is why we sometimes hear of lush money.

It is not the clock that strikes the loudest that always keeps the best time.

Pain Flees Before It.—There is more virtue in a bottle of Dr. Thomas' Electric Oil as a subduer of pain than in gallons of other medicine. The public know this and there are few households throughout the country where it cannot be found. Thirty years of use has familiarized the people with it, and made it a household medicine throughout the western world.

## Japan Violates Agreement

Is Now Placing Morphine On Sale In China

Greencastle, Ind.—"Japan is now violating the international agreement on the sale of morphine by sending the drug into China and placing it on sale there through strictly Japanese channels," declares William W. Lockwood of this city, who has spent 16 years in Young Men's Christian Association work in China, and who has been director in charge of this work at Shanghai.

Following the shutting off of the production of opium in China," Mr. Lockwood said, "the trade for morphine with Japan grew rapidly. In the provinces or cities dominated by the Japanese the sale is heaviest. There the Japanese have established their own post office and the parcels of the morphine are sent through the Japanese mails to China and are then distributed to the consumer through Japanese druggists. The price is exceedingly high, due to the fact that the Chinese government forbids its manufacture, and the fact that it is a more powerful drug than opium.

"A newspaper in Tientsin made an investigation of the sale of morphine by the Japanese. In the capital of the Province of Shantung representatives of the newspaper purchased morphine in 200 places."

## Britain and U.S. to Protect Belgium

London.—The Evening Standard says it learns on the highest authority that Belgium's security in the future is to be guaranteed against the German aggression by Great Britain and the United States.

Minard's Liniment Relieves Neuralgia.

"Why are you smiling, Jones?" "Forgot what the wife told me to get down town."

"Well, call her up."

"I did, but she forgot what she told me not to forget."

His First Shave

## He's starting right

Dad is happy to find that his boy won't have to put up with what he went through—dull blades, tingling face, half-removed stubble.

Instead the lad will experience only the cleanliness and comfort, the sense of physical well being that follow a cool, clean, satiny shave such as only an AutoStrop Razor can give. This and the fact that the AutoStrop Razor sharpens its own blades, and is not taken apart for stropping or cleaning, has led thousands of dads everywhere to recommend the AutoStrop Razor to their sons.

## Australia Seeks Real Democracy

Melbourne.—Premier Hughes, in a speech, said Australia must have a government that had a clear and direct mandate from the people. Referring to the general political outlook, he declared that whatever became of the other League of Nations the league of the British Empire would never perish.

Always Serviceable.—Most pills lose their properties with age. Not so with Parmelee's Vegetable Pills. The pill mass is so compounded that their strength and effectiveness is preserved and the pills can be carried anywhere without fear of losing their potency. This is a quality that few pills possess. Some pills lose their power, but not so with Parmelee's. They will maintain their freshness and potency for a long time.

## Try This Recipe

"To give the face a good color," says an exchange, "get a pot of rouge and a rabbit's foot. Bury them two miles from home and walk out and back once a day to see if they are still there."

A bachelor's idea of "freedom" is to avoid getting tied up to one woman by getting tangled up with half a dozen.

## INSTANT POSTUM

Instead of tea and coffee.

# Undue Profits Will Spell Ruin

Toronto.—Speaking at the price enquiry, Mr. O'Connor stated that the object of his visit was to ascertain if a fair profit could be set for other commodities in addition to sugar, the exceeding of which would mean "criminality or jail."

They wanted to bring down the prices in such cases and then drive in rivets to keep them at that place. He prophesied that if this was not done, disaster would result, as there was a break of prices in sight, which would mean ruin to the country. The object of the board was not only to bring down prices, but to hold them down.

A. C. Pyke, speaking for the wholesale grocers, said that his guild was quite willing to have inspection of its business. The members would co-operate with the board, he said. The same was said by Robert Dowson, the grocers' section of the Retail Merchants' Association.

"We are going to put the rivets in and say the prices cannot go any higher, but we may have to maintain the prices of some goods," said Mr. O'Connor. "There is going to be a hard time coming soon when something is going to break. It is no good a woman paying 25 cents a dozen for eggs if her husband is going to be put out of business as the result. But unless prices are brought down quickly there will be a big break."

## Against Leaving Russia To Fate

Col. John Ward Warns Britain of Real Meaning of Evacuation of Territory

London.—Col. John Ward, Labor member of the House of Commons, who has just returned from Russia, in an interview said that to desert the Russians who had rallied to our standard will make our name stink in the nostrils of every non-Bolshevik in Russia. "We went to Russia to prevent the Germans from transferring men to the western front," he declared. "Are we now to say to those who rallied round us, 'You have served our turn, we are going. We wish you luck?'"

That, said Col. Ward, is unthinkable. It would be black treachery to leave them to face the enemies they have made for our sakes without anything more substantial than our goodwill.

## British Monitor Was Not Raided

London.—It is declared in official quarters that there is no truth in the report that a party of Sinn Feiners on a recent night had boarded a British monitor off Cork, overpowered the skeleton crew and raided the vessel. The report, printed in the Daily News, added that the raiders had escaped with a quantity of rifles, munitions and valuable instruments.

## Kolchak on Offensive

Omsk.—General headquarters of the Kolchak army announced that the offensive was being pressed successfully along the Siberian front. The enemy is being driven back everywhere with severe losses, the announcement says, and has been compelled to abandon prisoners and important booty.

# Peace Treaty Is Signed By Austria

St. Germain.—Austria's signature to the peace treaty and the departure of Dr. Karl Renner, the Austrian Chancellor and head of the peace delegation, for Vienna in an endeavor to brace up the unstable government have caused a feeling of relief in conference circles, where there has been great uneasiness lest the Vienna government should fall before the completion of the treaty.

The Bulgarian treaty probably will be handed to the Bulgarian delegation on Sept. 12 at the French Foreign Office, where arrangements have been made for an informal ceremony, the Bulgarians having expressed discontent in the proposed simple delivery of the treaty by the secretary of the conference.

Probably 21 days will be granted the Bulgarians to make observations on the treaty, and it is expected that the conference will take a short vacation while the Bulgarians have it under consideration.

Dr. Renner's cheerful acceptance of the treaty which he had frankly

## Will Paralyze Steel Industry

Great Strike Is Declared Despite Appeal From President Wilson to Wait

Washington.—Regardless of the request of President Wilson that they take no action pending the coming industrial conference, representatives of the organized workers in the steel industry called a strike, effective September 22, to compel recognition of their unions, and of the principle of collective bargaining by the United States Steel Corporation.

The executive council of the 24 unions represented among the workers made known their decision in an announcement issued after they had requested the President, by telegraph, for a "more definite statement" as to the possibilities of arranging a conference with steel corporation officials, and after they had received a reply from the President asking that they withhold action until after the industrial conference.

## Aliens In Canada

W. D. Euler Will Enquire How Many Are Still Interned

Ottawa.—The question of interned aliens is to be brought to the notice of the House of Commons by Mr. W. D. Euler, North Waterloo, who has given notice that he will enquire how many alien enemies are still interned in Canada, how many were interned after the signing of the armistice, and when may their release or repatriation be expected.

Mr. Euler will also ask if a British subject being a naturalized citizen of New Zealand, of German origin, may be interned in Canada, or if he may be deported to Germany.

## \$400,000 Wage Increases

Winnipeg.—Although no official statement will be made until the end of the week, it was learned from an authoritative source that wage increases to the extent of \$400,000 must be made by the Winnipeg Electric Railway, according to a decision reached by the Mathers board, which recently sat to investigate the men's grievances. The increases may be made retroactive, it is stated. This increase will affect carmen, conductors, motormen, trackmen, repairmen and inspectors.

## To Control Cold Storage

Washington.—The first of the high cost of living laws proposed by President Wilson took form when the house agriculture commission ordered favorably reported a bill to control cold storage. All containers of food when placed in storage would be stamped "cold storage food" and the dates upon which they entered and left storage would be stamped.

## Against Trade With Germany

Melbourne.—Premier Hughes, addressing a meeting of the Nationalists' Federation, said that Germany stood today the best organized nation in the world for a commercial war. He said some people had spoken to him of trade relations with Germany. If they wanted trade relations with Germany, they must get somebody else. (Cheers.)

# Peace Treaty Is Signed By Austria

St. Germain.—Austria's signature to the peace treaty and the departure of Dr. Karl Renner, the Austrian Chancellor and head of the peace delegation, for Vienna in an endeavor to brace up the unstable government have caused a feeling of relief in conference circles, where there has been great uneasiness lest the Vienna government should fall before the completion of the treaty.

The Bulgarian treaty probably will be handed to the Bulgarian delegation on Sept. 12 at the French Foreign Office, where arrangements have been made for an informal ceremony, the Bulgarians having expressed discontent in the proposed simple delivery of the treaty by the secretary of the conference.

Probably 21 days will be granted the Bulgarians to make observations on the treaty, and it is expected that the conference will take a short vacation while the Bulgarians have it under consideration.

Dr. Renner's cheerful acceptance of the treaty which he had frankly

## Serious Outbreak Of Rioting In Boston

Two Men and Boy Killed In Turbulent Outbreaks In Massachusetts Capital

Boston, Mass.—Two men and a boy were killed in turbulent outbreaks growing out of the police strike. There were numerous injuries of a minor nature to members of mobs, police officers and state guardsmen. The most serious disturbances were in the vicinity of Scollay Square and South Boston. Cavalry charged the crowds, and a machine gun was used, one man being killed and several wounded by its fire. Property damage was slight compared to that inflicted by the wild rampage of hoodlums.

One of the most serious elements in the complicated outlook was the possibility of sympathetic strikes by labor unions, which have declared their support of the policemen's union. Like the patrolmen's organization, most of these unions are affiliated with the American Federation of Labor. The crowd early became riotous and cavalymen were sent to disperse it. The mob surged in and out of the square. Shots were fired and an unidentified man was killed. A woman was wounded in the arm, a middle-aged volunteer policeman was so badly beaten that he was removed to a hospital, and three cavalymen were hit over the heads by other missiles and also were given hospital treatment. After military reinforcements arrived the square was finally cleared.

The South Boston district was so turbulent that it was considered one of the worst danger spots, and a large force of troops was thrown in there. For some time they had in check the mobs of the Peninsula section, but late at night conditions were so menacing that a machine gun crew was rushed over to aid them.

So fierce was the resistance of the angry crowd to the efforts of the guardsmen to preserve some sort of order that guns were levelled and the machine gun was put in position. All sorts of missiles were hurled at the guardsmen. A shower of stones so endangered the soldiers that machine gun crews were ordered to fire. One man was killed and several wounded.

## Hurricane Hits Florida

It Is Believed That The Damage Will Exceed \$2,000,000

Key West, Fla.—Lower Florida was paralyzed as a result of a violent hurricane that passed over that section. Three hundred and twenty frame buildings practically were razed, many church edifices wrecked and five retail stores tipped over. The damage is estimated at more than \$2,000,000.

Shipping off the coast met with disaster. Several small vessels were sunk and others were driven on to the reefs. A strong wind and rough sea prevented rescue work.

In the little town of Goulds, near Miami, eight buildings were totally destroyed and 13 partially demolished.

Although the property damage was enormous, no fatality has been reported.

The steamer Grampus, with a crew of 125 men, was sunk in Key West harbor, and the two-masted schooner U. V. Drew, bound from Tampico for Cuba, with a crew of seven men, was reported sunk off Key West harbor, where she had put in to escape the storm. Whether or not the crews escaped is not known. The navy radio station was put out of commission. Fruit and vegetable growers suffered the heaviest losses, the damage around Miami being estimated at half a million dollars.

## Gave His Blood To Save Life

Kingston, Ont.—A case of unusual self-sacrifice is revealed in an operation performed in the Queen Military Hospital. Sergt. Thompson, a patient at the hospital, is a victim of pernicious anaemia, and the hospital doctors decided that a transfusion of blood was necessary. Volunteers were asked for, and the first to offer was Harry Parkes, an orderly at the hospital. The operation was carried out successfully. A pint of blood was drawn from Parkes and transfused into the system of Thompson. Both men are doing well, and the patient's life will be prolonged many years.

## War Indemnity For Australia

Melbourne.—Premier Hughes has informed the members of the Australian cabinet that if Germany makes the first indemnity payment by 1920 Australia's share will be ten million pounds sterling. When the indemnity was fully paid, he stated, Australia's share would be nearly sixty million pounds sterling.

## Postal Workers Set Own Path

Will Not Affiliate With Trades and Labor Council Nor Participate In Other Strikes

Winnipeg.—At a meeting of the Winnipeg branch of the Amalgamated Postal Workers, it was unanimously resolved not to affiliate with the Trades and Labor Council, and not to participate in any local or sympathetic strikes. The general executive was informed that the Winnipeg branch desires the clause permitting participation of a branch in local strikes deleted from the constitution. It was decided to demand from the government representation on any deputation that would meet the Cabinet to discuss the civil service reclassification bill.

The next meeting of the Winnipeg branch will discuss the reductions in salaries caused by the new cost of living bonuses, which bonus reduces salaries of most employees from \$40 to \$100 a year, and the changes desired in the reclassification bill.

Frank R. Sutton was elected president, William Moore vice-president, and E. J. L. Fuller general secretary.

## Want Red Cross Help

Canada Can Aid Kolchak By Sending Supplies

Ottawa.—Kolchak and Denikine must be given support by means of munitions and Red Cross supplies if the menace of Bolshevism is to be swept from Russia, in the opinion of Lieut.-Col. Douglas D. Young, who went to France with the B.C.D., and who was a member of the British military mission in Siberia.

Col. Young laid the facts about Russia before the members of the House of Commons. What Canada can do to help the down-trodden Russian people is to send Red Cross supplies, said Col. Young, who stated the men were being sent down from the line with their wounds bound up with dirty rags, and there was an entire absence of medical and surgical needs in the country.

## Last Of Canadian Contingent

Only 8,000 Canadians Now to Return From Overseas

London.—Col. Thomas Gibson, Toronto, assistant-overseas minister; Col. A. G. Rankin, medical headquarters, and Col. Lang, Ottawa general staff, have sailed on the Caronia.

The Regina takes the last contingent from Wilkes camp. The Corsican leaves Glasgow with 300 families. The Araguaya makes her last voyage as a hospital ship. Less than 8,000 Canadians now await repatriation. The sailings will gradually decrease from now onwards, parties being rarely more than 400.

## Russian Evacuation Retarded

Bringing Away Many Women and Children Whose Lives Are in Danger

London.—Winston Spencer, Churchill, Secretary of State for War, in a statement just issued denies that there has been any change in the British policy to evacuate North Russia.

Evacuation, however, has been retarded owing to the necessity for bringing away many Russians who are in danger of their lives, as well as women and children.

Mr. Churchill admits it will be impossible to effect a junction with Admiral Kolchak before winter. He denies that British troops are employed, or that the British Government has accepted any responsibility in operations against Petrograd.

## Sir Arthur Currie on War Gratuities

Hamilton, Ont.—General Sir Arthur Currie, the Canadian commander, who was received with cannon arms by this city, stated that while he sympathized with the veterans in their efforts to secure a more liberal allowance, he thought the \$2,000 gratuity asked would prove too great a burden for the country to bear. The veterans' plea to have a commission appointed to consider their claims was reasonable, he said, and should receive consideration. He was in favor of generous pensions, and said the present pension regulations would have to be readjusted.

## Held Up German Goods

Melbourne.—Although the cables state that trade between Germany and Britain has been resumed, many German goods arriving in Australia are still liable to seizure and confiscation. Commercial men are still waiting for the government to make some detailed announcement regarding the embargo on trade relations with the Germans.

W. N. U. 1281

## Prince Of Wales At Saskatoon

Rode Bucking Broncho and Captured All Hearts

Saskatoon.—For the first time in the history of Saskatoon the heir to the throne visited here, and was accorded a welcome the like of which has never before been witnessed in the district. Fully 50,000 people were in the city, farmers from the districts for miles around journeying in to pay honor to their future King.

After being publicly received by Mayor F. R. McMillan, the Prince decorated a number of returned soldiers with medals for gallantry. A visit was then paid to the university, where an address was delivered by Sir Frederick Haultain.

Again passing through cheering crowds, the Prince was driven out to the exhibition grounds, where he witnessed a stampee, something which His Royal Highness had never seen before. A tremendous cheer from fully 20,000 people greeted the royal party, who witnessed the performance from a specially erected royal box. Riding bucking bronchos, steer throwing, wild horse races, steer riding, lassoing wild horses all kept the Prince greatly interested.

When the performance was over and the Prince was about to leave he asked permission to ride on one of the bucking bronchos, and amid the wildest cheering His Royal Highness rode down the track, surrounded by cowboys and cowgirls. He then had his photograph taken on the horse surrounded by his strange bodyguard.

Entering the automobile again to make the return journey the Prince was practically mobbed and sitting on the hood of the car wildly waving his hat, and with a body of cowboys giving their famous calls, the Prince left the exhibition and went to the home of the mayor and was introduced to a number of ladies who had worked for patriotic societies.

## U.S. Fleet Visits Victoria

Full Ceremonies Accorded Visitors to Capital of British Columbia

Victoria.—With shore batteries and ships' guns booming their salutes in a drizzling rain, the U.S.S. New Mexico and Arkansas, with Secretary of the Navy Daniels and Admiral Hugh Rodman aboard, conveyed by a division of destroyers, dropped anchor in Victoria harbor.

As the flagship New Mexico came to anchor and the British naval ensign climbed aboard her, the roar of a 21-inch gun salute rolled across the waters of the Royal Ross, to be followed by the return salute from the guns of Work Point. Then came 19 guns from the shore batteries in honor of the secretary, to be returned by 19 guns from the Arkansas.

Shortly afterward the official reception party came aboard the Arkansas. Heading the party, Premier John Oliver, of British Columbia; Mayor Robert Porter, of Victoria; and R. B. Mosher, U.S. consul in Victoria.

The reception committee also paid an official call on Admiral Rodman aboard the New Mexico. When this was concluded, Secretary and Mrs. Daniels, accompanied by the secretary's aide, Commander P. W. Foote, put off from the Arkansas and disembarked at the landing stage in the inner harbor.

Secretary Daniels was taken on a tour of inspection of Yarrow's shipyards, the schedule also including a visit to the present dry dock at Esquimalt and the site of a new one to be started in the near future.

In the evening the secretary was the guest of honor at a dinner given by the Canadian Club, while Mrs. Daniels was entertained by Mrs. Oliver, wife of the Premier, and other ladies of the capital.

## Ask Canadians to Join Russians

London.—Col. John Leckie, who recently returned from North Russia with the Canadian officers of the Murmansk expedition, has been asked by the Russian authorities to form a brigade for service there.

Assuming that diplomatic considerations will permit Col. Leckie to undertake such a task, it is understood he views the proposal with considerable favor. Several officers who originally joined his command are willing to serve again.

## Wants No Enemy Aliens

Kingston, Jamaica.—A bill has been introduced in the provincial assembly by the government which prohibits any former enemy alien from landing in Jamaica without a special permit from the local authorities. The penalty for breaking this law is fixed at \$500 or 12 months' imprisonment.

Even a hen can scratch up trouble between neighbors.

# A Strong Navy For Australia

## Strike Leaders Released

Were Greeted By Large Gathering of Sympathisers on Leaving Jail

Winnipeg.—After twenty-six days' incarceration, the eight strike leaders who have been held in the provincial jail pending their trial on charges of seditious conspiracy, were granted bail. Chief Justice Mathers, who, together with Mr. Justice MacDonald and Mr. Justice Metcalfe, heard the arguments of counsel, read the decision of the court.

Bail was granted in the sum of \$4,000 each and two sureties of \$2,000 each.

The court found that it had not been proven that the accused would not appear to stand their trial, and the decision went on to state: "The court would not be justified in refusing bail on the sole ground that public safety might be endangered by permitting the accused to be at large."

The decision, as read by Chief Justice Mathers, follows: "Because of the great public interest involved in this prosecution, and because bail has once been refused by a brother judge, I asked my brothers, MacDonald and Metcalfe, to sit with me while hearing this application, and had the satisfaction of knowing that both concurred with me in the views here expressed."

"I therefore order that the accused be admitted to bail in the sum of \$4,000 each and two sureties of \$2,000 each."

Immediately the court had adjourned, E. C. MacMurray, together with the bondsmen, left for the provincial jail, where the formal proceedings preceding the release of the accused were completed.

William Ivens was the first of the eight leaders to be released. His appearance in the doorway of the jail was the signal for cheers from the crowd of workers, numbering over 1,500, who had gathered to greet their leaders. Someone in the crowd started singing "For he's a jolly good fellow," and the song was immediately taken up. Ivens was "chaired" and carried around the square.

"I've gained eight pounds in the time I've been here," said Ivens, "and I think I'll go out and rob a bank to get back; they've treated us so well."

Ald. John Queen was the next to appear. He, too, received the same greeting from the crowd. The remainder of the men, Ald. A. A. Heaps, George Armstrong, R. E. Bray, W. E. Pritchard, R. J. Johns, and R. B. Russell came out together. They were immediately seized by their friends and "chaired."

## New Zealand Needs Millions

Wellington, N.Z.—The House of Representatives has authorized the government to borrow sixteen and a half million pounds sterling to be used for the settlement of ex-service men in New Zealand. The interest on the loan will be free from income tax.

# For State Ownership Of British Mines

## Wheat Board Ruling

New Order Forbids Railway Companies to Transfer Wheat Without a Permit

Winnipeg.—The Canadian Wheat Board has issued an order (No. 42) which stipulates that no wheat shall be transferred by any railway company in the following areas of Alberta and Saskatchewan without a permit from the Canadian Wheat Board: In Alberta: The area bounded on the north by the C.P.R., Lacombe to Compeer; on the west the boundary line of the province; on the south the Saskatchewan river. In Saskatchewan: C.P.R. subdivision, Cutknife, Wilkie, Hardisty, Maclean, Biford, Helfeld, Kerrobert, Coronation, Swift Current, Empress, Maple Creek, Maynard, Shaunavon and Govenlock.

C.N.R. subdivision, Kindersley, Hanna, Elrose and Delisle.

G.T.P. line, Trandorato, Artland, Biggar, Calgary branch, Cutknife branch and Alean, Battleford branch.

When it comes to speaking ill of their neighbors most people are there with the goods.

Sydney, N.S.W.—Admiral Sir John Jellicoe, whose mission here is the reorganization of the Australian navy, has completed his report. This provides for the establishment of an Australian naval unit, composed of eight modern battle cruisers, twelve light cruisers, twenty-four destroyers and twelve submarines and supply ships. This program is to be completed in 1923 at a cost of \$25,000,000 annually.

It is considered doubtful that the government will accept these proposals.

## Nationalization Of Mines Endorsed

United Mine Workers Also Resolve on Six-Hour Day in All Coal Mines

Cleveland.—Nationalization of mines as a general principle was approved by the convention of the U.M.W. of A., with only one dissenting voice, the sole objector being shouted down when he declared nationalization an impossibility. He later explained that he only meant impossible for the present. Concrete proposals for nationalization are expected when the report of the committee on resolutions is presented with the discussion of this theme.

The convention voted with the same unanimity for the six-hour day and five-day week in all coal mines—to be incorporated in the demands presented to the mine operators at the joint wage conference at Buffalo, September 25, but deferred discussion of specific wage demands until later.

South Africa Ratifies Peace Treaty Capetown, South Africa.—The House of Assembly has ratified the peace treaty.

Lieut.-Gen. J. C. Smuts, Premier of the Union of South Africa, replying during the course of the debate in the House of Assembly on a motion for the ratification of the peace treaty, said he did not ask the house to approve, but merely to ratify the treaty. The Germans had been told that if there were parts of the treaty which could not be carried out they had the means of obtaining modification in the League of Nations, in which he foresaw the enemy countries would become members at no distant date.

## To Further Irrigation Plans

Edmonton.—There are a number of things to be settled between the Dominion Government and us in connection with the matter, but I say go ahead with your schemes, and we will not hold you up."

This was the assurance given by Premier Stewart to a big deputation of landowners from Southern Alberta, who are interested in the promotion of irrigation in the south country, and came to the provincial ministry to ascertain their attitude in the matter.

The light in the eye of a gossip is of several scandal power.

# The Busy Store

## New Arrivals

### Ladies Winter Coats:

In the Newest Cloths and Styles. Be sure and look them over before you place your orders elsewhere. They have been pronounced very cheap by the ladies who have already seen them.

### Ladies Sweaters:

The Famous Monarch Knit. We have some excellent things to offer in this line.

### Ladies Cashmere Hose:

All Sizes and Prices. This Line is Complete

## Groceries and Fruit:

Will Arrive on Thursday  
Peaches, Pears, Plums, Crab Apples  
90 Baskets of Grapes

Ripe Tomatoes

Green Tomatoes

We pay Special attention and give Special Prices to Threshers both in Groceries and Blankets.

# Webster Bros.

MOTTO: "Your Money's Worth or Your Money Back"

## Ford SEDAN

NOT a dollar is spared either in the construction or finish of the Ford Sedan—and not a dollar is wasted.

Just as the Ford car reached the summit of motor car Efficiency and Value, the Sedan has attained the utmost in Motoring Comfort.

The Ford Electric Starting and Lighting System—Standard Equipment on all Ford Closed Models—adds a touch of finality to the convenience of these cars.

It is as reliable, and positive in action as the Ford Motor into which it is built. A two-unit system, Generator, Starting Motor and Battery—a Ford product.

The Ford Standard Magneto also provides ignition, independent of the batteries.

An instrument board on the cowl gives convenient control of the system. See it by all means, or, better—ask for a demonstration of the Ford Sedan.

PRICES—including Electric Starting and Lighting, Ford Sedan \$1175, Ford Coupe \$975, f. o. b. Ford, Ont. (War tax extra)

Demountable rims, tire carrier and non-skid on rear as optional equipment on closed cars only at \$25.00 extra.

August Jensen, Dealer, Standard

## The First Airplane to Pass Over Gleichen

Last Friday morning the first air ship was sighted from Gleichen at 20 minutes to 8 o'clock, just north of town on its way to the Brooks, having started from Nanton. Mrs. Williams telephoned to The Call it flew directly over her house.

Sunday afternoon returning on its way to Calgary it flew a little south of town. On both occasions it was quite low and it could be seen Capt. McCall was accompanied by another man.

Tuesday morning the lighter than air craft again passed over town journeying to the Bassano fair. On this trip it passed fairly over town and a splendid view was obtained.

## Local and District News

A. McDonald, late of the Canada Land Co, spent a few days in town.

Foreman Tetley and his crew are putting in good work on several new road bridges.

Quite a number of subscriptions to The Call are due. Look at your label on this paper and see how you stand.

Quite a number of Gleichenites went down to take in the Bassano fair yesterday and more are going today.

Mrs. W. F. Durston of Queens-town is in Calgary for medical treatment, and is said to be improving nicely.

E. Kelley of Seattle spent a day in Gleichen last week, looking over the prospects of taking a troupe through.

The Call agrees to do all of your printing as cheap as you can get it anywhere in Canada and bring it to Gleichen.

G. E. Stuart, wife and daughter were guests at the Palace last week, while getting their new store in Cluny ready.

The heavy rain last Friday afternoon and night made it necessary to postpone to Agricultural Association dance announced for that night. Watch for the new date.

J. C. Morton returned to Gleichen last Wednesday from Calgary, where he recently under went two severe surgical operations. He is still very weak, but is attending to operations on his ranches.

As it is now evident the Gleichen School of Agriculture will not be erected in time for use the coming term, the Olds school announces in this issue that it will open on Oct. 29th classes in agriculture and domestic science. Read the announcement on Page 8.

Next Tuesday, Sept. 33rd, the Musical Eckarts, the well-known Swiss bell ringers, will make their annual appearance in the Gleichen Opera House. This company needs no introduction to Gleichen. They have never failed to give an excellent entertainment.

W. Bielby writes The Call to send his paper to Bankhead, where he has accepted a position as blacksmith in the mines. He says he likes the mountains and advises any returned veteran miners that there is plenty of work for them at Bankhead. He says no returned man will be turned away if he is willing to work.

The main road from here to Calgary is now in fair condition except between Strathmore and Chestermere lake. Along this bad stretch a grader run over it could make a good road of it in a short time and it should receive immediate attention as it has been in bad condition for sometime.

## OLDS SCHOOL OF AGRICULTURE Education Pays on the Farm

Statistics show that farmers who have had an education make larger incomes than those who have received but little schooling.

An education is more necessary now than it was thirty years ago. Farming has changed greatly in this period. Then, farmers cut their grain with a cradle, bound it by hand and threshed it with a flail. They ground their grain between stones and lifted the water out of the well in buckets. They treated their nondescript cattle for "hallow horn" and "wolf in the tail" and planted their grain "in the moon." The horse and the ox were their only means of transportation. The farm houses had no conveniences; houses were lit with candles; the kitchen equipment consisted largely of hard work.

Now, the farmers have larger farms. They put and bind their grain and thresh with engine driven separators. They frequently plow with tractors and many own automobiles. They select varieties of grain that are known to give larger returns than the ordinary varieties. They treat their seed to control diseases and plants at rates per acre, which experiments have shown to give maximum yields. They select improved types of breeding animals and feed their stock in accordance with knowledge derived from the chemistry of foods. The farm houses have been greatly improved.

To keep up with the times and to make the most money from the farm one should know how to farm with the most improved methods. You can learn these methods at the Olds School of Agriculture. Education pays; you can learn in a few months what it would take years of experience to give you. Talk with any ex-student regarding the value of the course.

Classes in Agriculture and Domestic Science commence on October 29th. For particulars write: F. S. Grisdale, Principal, Olds School of Agriculture, Olds, Alberta.

F. S. CCISDALS, Principal, Olds School of Agriculture, Olds, Alberta

## HORSE BLANKETS

Water Proof Duck \$5.00 each.

Other lines from \$3.75 to \$4.50

## GLOVES

For Fall and Winter Wear.

Our life-long experience in handling leather has stood us in good need in making our selection.

## Class in Hand Painting

Will be started after September 1st, in oils on velvet silk or academy board, etc.

All those interested can make arrangements with

Mrs. E. R. Moore

### Notice

Notice is hereby given that any persons having animals trespassing on the Blackfoot Indian Reserve are required to remove same before September 15th, 1919, and failure on such owner's part to remove such animals will render him liable for the expenses incurred in so doing, as by section 34 of the Indian Act provided, and such owner shall also be liable to the penalties as provided by Section 125 of the Indian Act.

Dated Gleichen, Alberta, September 6th, 1919.

J. H. GOODERHAM,  
Indian Agent.

STRAYED—Four Horses, with halter on. One dark grey, 5 years, gelding, weight 1400 lbs., no brand. One bay gelding, white face, 8 years, weight 1300, branded X R left shoulder. One bay gelding, 6 years, branded H J on right shoulder. One dark sorrel gelding, weight 1100 lbs., leg a little crooked, no brand. \$25 Reward for return or information leading to recovery of these horses. L. Stensen, Box 185, Gleichen 26tf

FOUND—At the fair, gold rimmed spectacles. F. L. Mallory, secy. 24

## MISCELLANEOUS

Notices under this heading 15 words or under \$50 for one issue and 3 issues for \$1. Over 15 words one cent a word charged for each insertion.

Horses and Cattle lost and found, for sale and wanted; Seed Grain for sale and wanted; Land to sell, rent or buy, and any other of a similar nature will get quick results by being published under this heading.

Brand reading notices \$1.50 for each animal, three insertions. Over 15 words 1 cent per word extra each issue.

When brands have to be cut a charge a 35c, each is made.

In order to insure publication CASH MUST accompany each notice.

FOR SALE—3 top saddle horses. Will trade for a Ford car in good running order. Apply to Gleichen Call. 25tf

LOST—Reward. On Aug. 31 small gold neck chain, cameo with ladies picture, between Gleichen Hotel and corner of 7th St. Return to B. Bissonnette. 25

OATS FOR SALE—Have some good feed oats at 55c per bushel. Pioneer Grain Co., R. O. Clifford, manager, Phone 119. 27

FOR RENT—4-Room cottage. Apply to Keith Pinder. 25tf

INFORMATION—To the whereabouts of horses branded W or AC on left shoulder will be gladly received by R. J. Connell, Hutton, Alta. 27

TILTON ENGINE FOR SALE TRACTOR—For sale. 10-20 in first class shape, in use one year. Too small for my work. Terms to right man. T. A. Elgenble. 25

FOUND—Doctor's club bag, on road about 1 mile south of Strathmore, on Wed., Aug. 20. Apply at Call office. 25

LOST—Gold watch, on Aug. 20, in Gleichen or between Gleichen and Standard. Man's Belgian Hunting case, with lady's picture in back. \$5 reward for return to R. Elder, Gleichen. 25

ESTRAY—On the premises of E. A. Wagner, Standard, a s. 4-5-25-31-w4, one red steer, little white spot on forehead, part of belly white, weight 1,000 lbs., staggy face, deborned, branded on left hip and deborned right shoulder. 25

FOR SALE—White, blue-eyed Persian kittens. Inquire for E. Blecha at Matthews Dept. Store. 25

Monday night a big crowd of young people took a surprise party to the home of Mr. Robt. J. Burne north of town and gave a miscellaneous shower to Miss Aida Burne, whose marriage to Rev. Mr. Lee is announced to take place shortly. A most pleasant evening was spent and all left wishing the young lady all things good.

Last Friday afternoon one of the heaviest rains in a long time set in and continued most of the night, thoroughly soaking the land. These rains are the very best thing for next year's crop and will help the feed crops materially. The rain put a stop to all threshing and grain cutting for a few days, but the wind and fine weather since permitted work to proceed again.
